King Drool III Attacks!

Evil King Drool III, the grandson of King Drool, is out for Bonk! And he's building a Monster Kingdom that threatens to destroy the world. As Bonk the Caveman, you're out for revenge in this all-out head-banger of a follow-up to the original Bonk. Knock yourself out with all-new characters, bonus stages, power-up items and an array of enemies that may look "friendly," but certainly don't act like it!

Object of the Game
Head-butt your way through the Monster Kingdom, face jungles, waterfalls, towering mountains and King Drool III's evil monsters. Score "power-up" points by eating fruits, vegetables, and junk food. Obtain extra lives by reaching high scores or capturing Little Bonks. The game is over when Bonk runs out of lives, or you destroy the ultimate Boss, King Drool III himself.

Note: Bonk's Revenge is a one-player game.

Inserting the TurboChip Game Card
1. Remove the TurboChip game card from its plastic case.
2. Hold the TurboChip game card with the title side up and gently slide it into the Game Card Port until you feel a firm click. Do not bend the game card or touch its metal parts as this could erase the program.
3. Slide the Control Deck Power Switch to the "ON" position. If your game card is not inserted properly, the Power Switch will not move all the way to the right.
4. The title screen of "Bonk's Revenge" should appear on your television.
Starting the Game
From the title screen, press the RUN Button. The Mode Selection Screen will appear.

If you choose "Expert," you will begin with 3 hearts, and play through 7 levels.

How to "Continue"
When the game is over, you may resume play by selecting "continue" and pressing the RUN Button. This returns you to the beginning of the last stage where you were playing. You may "continue" only 3 times.

Playing Tips and Hints

Don't jump on all flowers immediately. Instead, bonk them first to see if they will change color.

Generally, put Turbo Switches on for Button I and off for Button II.

Practice your triangle jump. It is necessary to finish the game. Timing is everything!

Extra point items can be found at every stage of the game, so eat them whenever you can!

Examine other routes. Use the Yellow Floret and the Propeller Floret to view the stage from up in the air. There sometimes are Power-up items in the clouds, as well as hidden in the ground!

Skip a stage with a secret warp.
